**What Happens If I Get Hurt At Work? (For NJ employees)**

Even at the safest of workplaces, injuries can occur. Here's what to do if you are injured at work:

1. Notify your supervisor immediately. He/She will ensure that you receive medical care if you need it and will file a Workers' Compensation claim on your behalf.
2. For emergency care, you should go to the closest emergency room. Any follow-up care must be provided by one of the approved facilities on your Workers' Compensation designated provider list. For non-emergencies, choose one of the designated primary providers. If you do not have a list, see your supervisor or Human Resources.
3. All necessary and reasonable medical treatment, prescriptions (through our pharmacy network), hospitalizations and other medical services related to the work injury will be covered if the claim is accepted as compensable.
4. The primary physician will evaluate your injury and determine if it is safe for you to return to work. If you are not returned to work, notify your supervisor immediately.
5. You must keep scheduled appointments with your treatment provider. If, for any reason, you are unsatisfied with the care you are receiving, please call AmeriHealth at 1-866-441-5326. After regular business hours, call 1-800-393-7196. Our claims adjusters and medical case managers are available to discuss your claim and to ensure that you receive reasonable and necessary care for your work injury.
